

Certified Sustainable Products

As the global leader in picture frames, Larson-Juhl takes the responsibility of sustainability practices seriously. We are proud to be the only moulding provider in North America to hold Forest Stewardship Council® (FSC®) as well as the Program for the Endorsement of Forest Certification Systems (PEFC) Certification. FSC® and PEFC are global compliance organizations that provide guidance for responsible environmental actions.

As both a manufacturer and distributor of timber products, Larson-Juhl will continue to be proactive in our relationships with both direct manufacturing and 3rd Party suppliers in order to adhere to a high standard of conduct as well as responsible sourcing of materials.

The mark of responsible forestry

Forest Stewardship Council

What is FSC®?

FSC® forest management certification confirms that the forest is being managed in a way that preserves biological diversity and benefits the lives of local people and workers, while ensuring it sustains economic viability. To learn more, visit www.fsc.org.

Click the FSC® logo to view our certificate.

This product is from sustainably managed forests and controlled sources

Program for the Endorsement of Forest Certification

What is PEFC?

The PEFC logo on our products ensures that our wood comes from sustainably managed forests, recycled and controlled sources. Every purchase of a PEFC-labelled product makes a difference for forests and forest communities across the world. By sourcing PEFC wood, Larson-Juhl is supporting sustainably managed forests globally.

Click the PEFC logo to view our certificate.

Larson-Juhl PEFC Chain of Custody Commitment Statement

Certification by the Programme for the Endorsement of Forest Certification (PEFC) indicates a commitment to sustainable forest management through independent third-party certification.

Purchasers of Larson-Juhl PEFC certified picture frame mouldings should feel good about becoming another link in the chain of custody that is an important part of managing sustainability on our planet.

PEFC certified products ensure:

The stewardship and use of forests and forest lands in a way, and at a rate, that maintains their biodiversity, productivity, regeneration capacity, vitality and their potential to fulfil, now and in the future, relevant ecological, economic and social functions, at local, national, and global levels, and that does not cause damage to other ecosystems.

Certified Sustainable Products

FSC® and PEFC Certified Moulding

Larson-Juhl proudly offers **FSC® and PEFC Certified Moulding**. As a company, we believe in empowering consumers and companies to buy sustainably. We have the only selection of FSC® and PEFC-certified mouldings for our customers. Certified Mouldings include the following Collections:

Anvil, Brittany, Sofia, Petite I & III, Spencer I & II, And More!

FSC® Certified Artique Matboard

FSC® Certified Artique Matboards are made in partnership with specialist papermaker James Cropper in Cumbria, UK in a factory that heavily focuses on sustainability. James Cropper takes extra steps to ensure their factories are maintaining sustainable practices

in water, energy, and waste. By reducing water waste in the mill, investing in low-carbon energy solutions, and zero waste transfer from landfill to the site, FSC® Certified Artique Matboards are created with sustainability in mind from start to finish. The paper mill uses 24% recycled fiber input, given a second life as paper products and packaging.

Larson-Juhl Ashland FSC® Certified Manufacturing Facility

Located in Ashland, Wisconsin, Larson-Juhl's state of the art 122,000 sq. ft. manufacturing facility has been the leading resource for framers across the country and around the world. **The Ashland Manufacturing Facility** takes environmental responsibility beyond production of Made in USA mouldings. Here are some of the ways we are committed to reuse and recycle:

[Click here to learn more.](#)

Raw Wood

All Raw Wood waste is sent to a Power Generation Facility to be converted into Electricity.

Saw Dust

Saw Dust is sent to Local Farmers for Animal Bedding and Mulch for Fields.

Packaging

Excess Plastic Wrap from our packaging is sent to a neighboring Plastics Recycling Facility.

Hardwoods

We proudly use Sustainably Harvested North American Hardwoods.
